The Dy Commr of Tumkur enquired of the Collector whether assessment would be paid on the lands during the period of the occupancy, irrespective of the compensation payable to the owners of the Lands by Latter officer said in reply that the sum of Rs. 164/-

was fixed as compensation for the permanent transfer of the Lands to the British Govt. and not for temporary occupation.

2. In July 1894 the Dy Commr represented the matter for the orders of Govt.

In reply, the Dy Commr was informed that it would be most convenient to transfer only the occupation of the Lands subject to the payment of Land Revenue and Cess, but if the Collector wanted the Land permanently free of Land Rev and Cess, a lumpsum payment should be made to the State in redemption of Land Revenue and Local Cess in addition to the compensation of Rs. 1641/-. pears that the Madras

the Dy Comm's letter. The
Madras Govt want, in

The total extent of all the 4 lands is 31 acres and 9 guntas, of which 7 acres - 5 guntas are dry and 24 acres - 4 guntas wet ~~pot~~ the total assessment, ~~to~~ Rs. 83/-. The Madras Govt have also asked the Board to report whether instead of acquiring the lands absolutely on payment of the capitalized revenues derived from them, the right to use and repair the channel could not be acquired by payment of an annual rent. The Collector has asked the Inspecting Commr to furnish him with details as to the exact extent of the lands required by the Madras Govt, as shown in the sketch, the approximate compensation that may be paid therefor, & the capitalized value for them.

The Inspecting Commr says

that he has asked the
Collector to move the
Resident in the matter thro'
the Madras Govt.

5. The Dy Commr does not
say whether the Lands have
been made over to the
Collector or not. But
from the Proc^s of the Board
of Rev: Madras, the lands
do not appear to have
been taken over by the
Collector, because the
Govt directs the Board to

(1): The Lands required by the
Madras Govt are: —

	A. C.	Assessment.
Area under occupation —	20—20	66—8—0
Wet.	18—23	66—4—0
Dry	1—37	0—4—0.
	20—20	66—8—0.

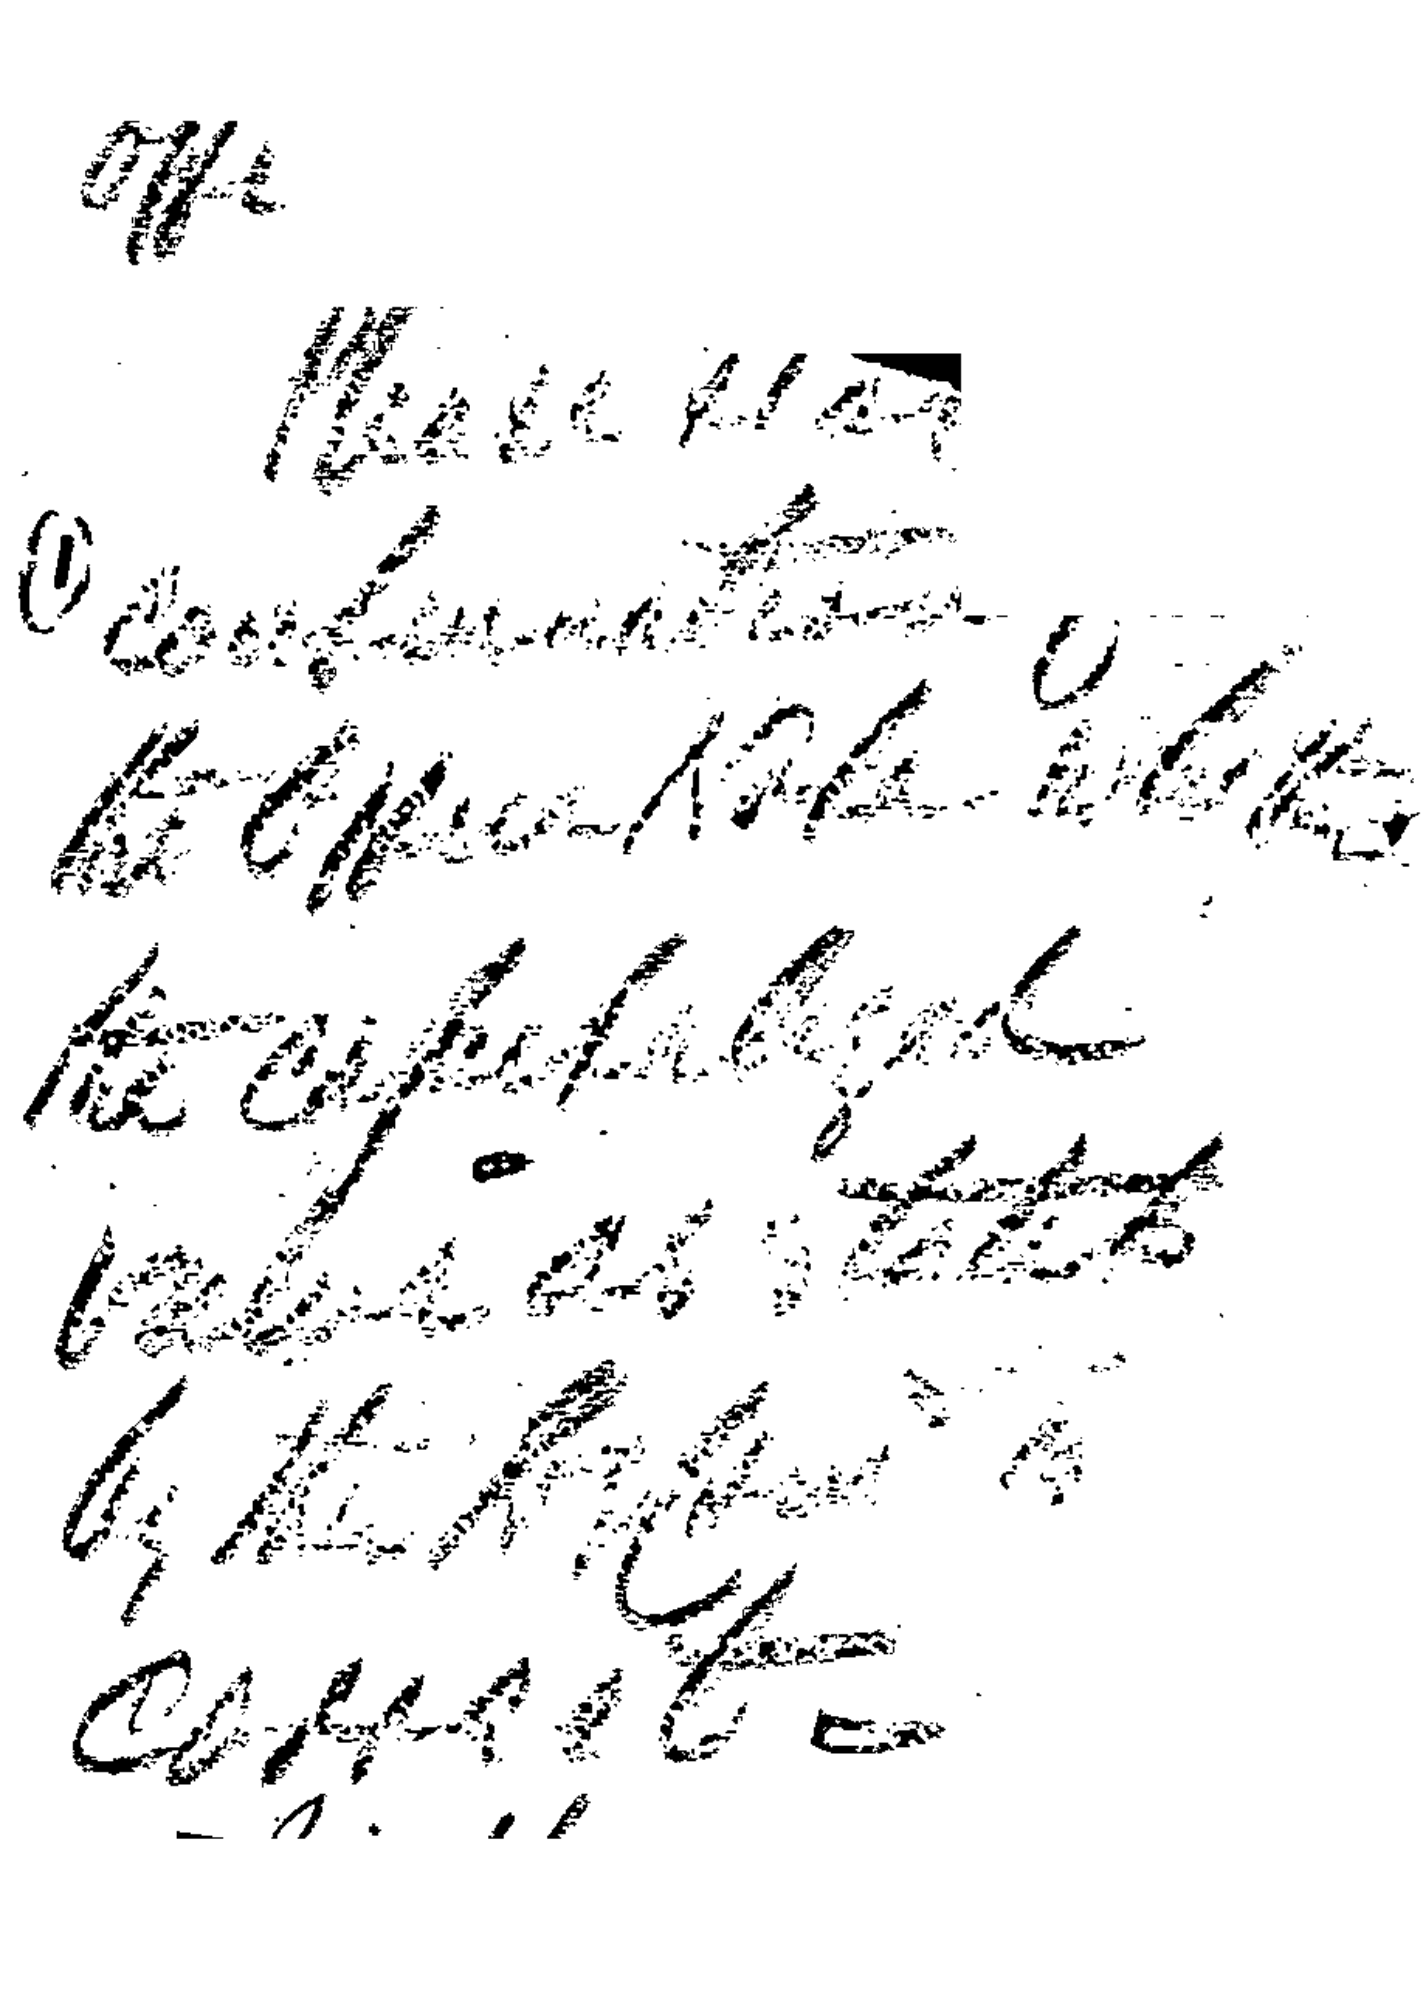
	10—29	16—4—0
	31—9	82—12—0 or 83 Rs.
L. D. ceases about		10—0—0. = 93 Rs.

The Deputy Commr



calculates the capitalized value of the lands as shewn below:—

If the value (or the assessment) of the lands is Rs. 3/-, the capitalized value will be 100 Rs. Therefore, if the value of the lands is Rs 93, the capitalized value will be $\frac{93 \times 100}{3} = 3100$ Rs. On what principle this calculation has been made and whether it includes the amount of compensation payable for the occupied lands, are not clear, & require to be ascertained from the Dy Commr.

16. If the mode of calculation given by the Collector as regards the lands of the Madras Govt is applied to the lands in question the result will be as follows:—

1st Compensation to the owners of occupied lands	To be fixed by the Dy Commr	
2nd Cost of converting the lands into a free hold ie 25 times the annual assessment of the lands. $83 \times 25 =$	2075	
3d Compensation for the loss of local & other cesses, ie 15 times the assessment. $15 \times 83 =$	1245	
Total	3320 + Compensation amount to be fixed hereafter	

* Please See para 6 supra & paper No $\frac{2}{a}$

to transfer the land - There
are several of our channels
in British territory and yet
we repair them. I think there
must be some such in the
Penneakalli Hobli of the Maddagiri
Taluq - Simply means a few
chains of a channel, and those
two admittedly mainly diverted
through some Inpore fields
I submit it is no argument that
the whole land should be given away -
It is a question which is also affected
by the present minority - On the
whole my inclination is to let
matters remain status quo.
& to afford all reasonable facilities
for the Madras Govt to repair the channel

Please see the Correspondence in this case regarding Bargadur

and my notes thereon in the D.P.W. Which I have
asked the Revenue Secy to Govt. to the Rev Dept.
adopting the plan settled in that Case viz to
make over the lands of the Madras Govt upon certain conditions
to the Collector of that Govt pursuant to the Darkast
for the Capitalized Value of the presumptive
Rent at thirty years purchase.
& the Compensation required to be paid
to the present Patta holders, as settled hereinafter

in the case of the Madras Govt Lands, as the calculation gives a larger sum than that (exclusive of the Commissioner).

Submitted for orders.

22/7/96

23/7/96

Put up to Secy

23/7/96

19 Secy's note

Absolute transfer of these lands is asked for by the Madras Govt. This must obviously involve reference to the Govt of India.

28/7/96

20. No Cession - we keep Crown rights

This is a cession of territory. The present basis of calculation is not wrong. The occupants are Govt tenants & if the right of occupancy is to be bought by the Madras authorities they must pay the cost to them to settle the compensation & deal with their rights in their own fashion.

But the question is whether it is advisable

His amount ~~exceeded~~ exceeds the amount calculated by the Dy Commr by Rs. 220. Of the lands that are required by the Madras Govt, the occupiers will probably have to be required by the Durbar under the L.A. Act, as the owners stoutly refuse to part with them & the compensation payable therefor will have to be fixed by the Court. Now the capitalized value of all the lands (occupied & unoccupied) will be Rs. 3320 + the amount of compensation to be hereafter awarded by the court for the occupied lands.

17. There appears to be no rule or precedent on the subject. Please See Paper no 4. in which the Dewan has framed to observe that no precedent exists.

But, for the sake of analogy, the principle involved in rules 4, 5 & 6 under Sec. XXIII of the L.A. Rules may be taken notice of

18. The Dy Commr may be requested to report whether the capitalized value of the lands should not be calculated in the manner the Collector has calculated

Major Remington, Secy. P. W. D. requested the Asst. Resident to move the Resident to obtain the required permission of the Madras Govt. to raise the bund of the above tank to R. L. 52.00 from 50.00 it being in the interest of the Anjana Province adjoining the Res. of Chenalapur in the Bellary District.

Mr. A. H. Garrett, Sec. Govt. Bellary, who was requested to report on the proposal of the Asst., by the Chief Engineer for Irrigation, Madras, stated that, if the T. S. of the tank were raised to 52.00 as proposed, the Chanadi village whose lands to the extent of 70 acres had already been absorbed in the waterspread of the Madakeri tank would practically have no land left & the ryots would have to abandon their homes.

Lieut. Col. M. Pillai, Superintending Engineer, III Circle, remarked that for reasons given above, it would be inexpedient to experiment the proposal of the Asst., as it would seriously affect the interests of the ryots of Chanadi village in British Territory.

21

The Madras Govt. concurring in the opinion of the C.W.D. stated that, while seeing no objection to the restoration of the tank with F.S.L. at its present level of 57.00, with waste of sufficient length to keep M.F.L. at 54.00, could not consent to any higher level being provided for - vide Govt. Order no: 830 of 1285 / 10th June 1887.

In October 1887, the Exec. Engr. requested that the Madras Govt. might be moved to permit the annual temporary raising of the permanent weir, to a height of 1½ ft., at the close of the October rains. In reply to this, the Chief Secretary stated that the Madras Govt. was unable to accede to the proposal to raise the F.S.L. of the Madanur tank from 54.00 to 55.50 by means of earth bunds.

II. Chinnamanur - Veredu Road - Kolar Dist.

In April 1895, the Resident was requested to obtain the permission of the Madras Govt. to the portion of the above road running through the British territory (a little over 2 miles) being opened & maintained by the Mysore Govt., the land required being 40 ft. in width along the line of the

decision was to be taken up for Grand quarries. The Madras Govt. was also asked to acquire under the act, the strip of land proposed for the new road.

To this the Govt. resident replied, that the application of the act for the purpose of taking up land required for a railway stat in foreign territory there may be objections to the Madras acquiring rights over land situated in British territory, & therefore stated that in the opinion of the Madras Govt., the best arrangement would be for the Dist. Board of Cuddapah to construct & maintain the road at the cost of the Madras Govt.

With reference to this, it was pointed out by the Govt. P.W.D. that the continuous road was necessary to open out the adjoining, hardly hate British & Mysore territory, & that the practice in such cases had hitherto been for the two Govts. to construct and own the portions within their respective jurisdictions, & when the length in one territory was insignificant for the Govt. of the other territory to be allowed to construct and maintain the same.

The following were cited as

23

as precedents:

(1) Gooty - Chengadmalli road.

(2) The road from Jagi Katte to Siravasi ford in the Bombay Presidency.

(3) One mile of the Bangalore - Anekal road, which runs through the Salem district.

In these circumstances the Madras Govt. were requested to reconsider this proposal.

III. Mavadi Paddi Koppa Tank.
Regd. No: 7-8. Sarada Taluk.

The Exec. Engr. Shimoga Div. submitted in September, 25, an estimate for restoring the above Tank & requested that the question of land to be submerged in the British territory might be referred to the Collector of the Dharwar dist.

In this office no: 6446/5357 of the 2nd October '25, the Collector of Dharwar was requested to obtain the consent of the Kadikhail ryots to the occasional annual submergence of the 4½ acres of this land in British territory, as it was proposed to raise the sluice level of the Tank by 2 ft., & was also informed that, if the ryots did not consent to this, the Mysore Govt. would pay the cost of raising the submerged field to the pro-

- fixed weir level.

In his reply no: $\frac{9}{28}$ of the 29th January last, the 2nd Asst. Collector of the Collectorate of Chanda, stated that the ryots refused to surrender the area of land required & suggested that the matter should be left for annual adjustment. His officers are of opinion that the lands would not be submerged in some years & in others the damage would be practically none, & it would therefore be cheaper for the Irrigation Dept. to meet annual demands, if any, for compensation for crop damage than to acquire or raise the level of the lands.

This question was submitted to the Diwan for orders on the 24th Feb. '30 & he directed that a reply should be sent to the 2nd Asst. Resident, stating that the Diwan disliked recurring demands for crop compensation & would prefer to acquire the lands or to do work necessary to prevent submersion - vide this office No: $\frac{132}{1208}$ of 1-3-30.

In his letter no: 2,950 of the 15th inst., to the address of the Diwan, the 2nd Asst. Resident states that, as the ryots refuse either to give up their

96

or to have them protected by an embankment, the Collector of Kanara is unable to make any suggestion for the furtherance of the object in view, unless a higher price be offered.

II. Opening out a road from Jogan Bail to the Gerga Falls ferry crossing of the Sharavati river to the Engineers' Bungalow on the opposite side of the Falls:

An estimate of Rs 500 for opening out the above road was sanctioned in Govt. Pro. No: 1068-75 dt. 88.93 / dt. 8th January 1895. In July '95 the Exec. Engr. Shimoga Dn. requested reminded the Dy. Comr. to acquire the land lying in Kadakani village of Siddapur Taluk, North Canara Dist. & transfer the same to the P.W.D. for laying out a permanent road. = From the reply sent to the 1st Asst. Resident by the Chief Secy. regarding acquisition of land on the British side of the Falls, for the Jogi Bail-Sharavathi ford road, it appears that the Bombay Govt. have offered to make over, free of cost, the small strip of protected forest in Survey No: 25, and to arrange for the acquisition of the other two lands (Nos. 24 & 29)

under the Govt. In this case Darbar have conceded to the prayer of the petitioners by acquiring the -ley Rs. 20 & 29, & also the conditions of British Jurisdiction over all the 3 land. They have also agreed to Rs. 2 reserving to the Bombay Govt if it ceases to be used for a rly & the Govt. Ley. has requested the Bombay Govt. may be moved to cause reservation of the land to be acquired being relieved as early as possible to the Dy. Comy Kanara Dist.

V Jeolur - Bhanga Dishali road

The Dy. Comr. Kanara Dist. Karwar reports to the notice of the Secy. P.W.D. in Fin. 338, that during his tour in the Mangalore Taluk, the inhabitants of Jeolur represented to him the inconvenience they experienced by not having a connecting link by a road, about 4 miles in length between Jeolur & Bhanga-dishalli. He was also shown how the absence of this link was felt on all sides & how the laying out of the road will afford facilities both to Coorg & Wynaad people. The first two miles of the trace along the cart track was shown to be mostly in the Coorg territory, very close to the frontier line, & the last two wholly in the

to Mysore Province. Considering the advantages that would accrue to the Coorg people thereby, the Dy. Comr. urged that the Coorg authorities should bind the Mysore P.W.D. to maintain the link, & should also contribute, if necessary, towards its maintenance.

When the Secy. to the Chief Comr. of Coorg was addressed as to whether Coorg would be prepared to meet the cost of constructing & maintaining the two miles of the proposed new road, which lay in the Coorg territory, he replied to the effect that the new road was immediately necessary for the Coorg people & would not justify such outlay as to justify any diversion of funds to it from the local funds which were already inadequate for the demands on them, & that no grant could therefore be made either towards the construction or maintenance of the proposed road.

On being informed of the decision of the Coorg Govt., the Dy. Comr. Hassan, requested to know whether the Coorg authorities would allow Mysore taking up the land required, in the event of the Hassan D.F. Board resolving upon making this road.

22. A Letter was written to the First Assistant to the Resident on the lines, recorded by the Dewan in para 21 of the office note. In reply, the First Asstt to the Resident intimated that the Madras Govt while agreeing to pay (1) the capitalized value of the present assessment on the lands at 30 years' purchase, and (2) the compensation to the holders of lands, which may hereafter be decreed to be payable to them under the Ellyaredu Regulation; consider it unnecessary to acquire all the fields situated on the British Side of the channel, as the Dewan's note explains to the proposed rectification of frontier. Resident states that the Suggestions made by the Dunbar have been carefully considered by the Govt of Madras, but that His Excellency the Governor-in-Council is for various reasons desirous of adhering to the view expressed in the First Assistant Resident's letter (19) of the 19th October 1827, viz that all the five fields referred to should be acquired, and requests that arrangements be made for the transfer of the said fields to the Collector of Ananthapur who has been instructed to take possession of them from the Mysore Authorities —.

Now, it is decided that all the five fields should be made over to the Govt of Madras, subject to the payment of Rs. 5237-13-3 to the Dunbar on account of compensation to the owners

Sir,

With reference to the correspondence ending with your letter Rec: No. 890 and Mis: No. 1080, I have the honor to forward herewith an Extract from Board Proceedings No. 3903 Mis: dated 9-8-95 (Land Revenue) and to inform you that the Madras Government has sanctioned the payment of Rupees 64 being the amount of Compensation agreed to by me for the two tanks referred to in your Letter quoted above, but that it has disapproved the proposal that this Government should hold those lands under the Poromboke Government on payment annually of Land Revenue and cess to the latter. The Government however suggested that it would be necessary to acquire not only the two fields, through which the channel now flows, but also all the lands belonging to Pilyore on the Eastern side of it absolutely on payment of the capitalized value of the revenue derived from them by the Durkar, so that the matter may be treated as a rectification of frontier. For this purpose, I herewith send you a rough sketch

THE FIRST ASSISTANT TO THE RESIDENT IN MYSORE.

To,

The Dewan of Mysore.

Dated Bangalore, 3rd June 1896.

SIR,

At the instance of the Government of Madras, I am directed to state that a supply channel issuing from the Parighi Major tank and irrigating the fields of a village named Narasapuram in the Hindupur Taluk of the Anantapore District, now passes through certain fields of Vinpasamudram Village situated in the Pavugad Taluk of the Mysore State, having been diverted through them some years ago with a view to bring water to Narasapuram at a lower level. It is stated that this diversion was effected at a time when the Reddies of both Vinpa-samudram and Narasapuram were influential men

man, under a mutual agreement and without reference to higher authorities, and that when the matter was brought to the notice of the Collector of Anantapur in 1883, that officer in consideration of the lapse of time that had taken place, allowed the matter to drop. As a concession in return, the ryots of Virupasamudram appear to be allowed to irrigate a few acres of land free of charge. ~ Considerable difficulty is, however, being experienced in the matter of executing the necessary repairs to the portion of the channel which runs through the Mysore territory and of exercising effective ~ control over the extent of land which the Virupasamudram ryots may irrigate free of charge. His Excellency the Governor in Council proposes, under the circumstances, to acquire from the ~ Mysore Government all the lands of Virupasamudram Village on the British side of the channel, absolutely, on payment of the capitalised value of the revenues derived from them by the Durbar, the matter being treated as a mere rectification of frontier. It is understood that the lands to be

thus

thus acquired are Nos 24/1, 24/2, 25, 27, 40, 41 an
42 of Virupasamudram Village, measuring,
all, acres 32.24 and assessed at Rs 53/-

2. I am directed to inquire whether the Durb
is willing to accede to the proposal of the Madra
Government, and if so, what the amount pay
-able by that Government would be.

3. Copies of the marginally noted papers em
-bodying the orders of the Government of Madra
on the subject, together with the original enclosu
are enclosed for reference and favour of return.

Tanjore 22d March 1895.

To.

The Secretary to the Government
of Madras, General and Revenue
Departments.

Sir,

In reply to your memo No: 3061/R F 87-95 dated 2d instant, calling for a report of action taken in the matter of the transfer to the Madras Government of certain lands of the Virupasamudram village in the Paragada Taluk, situated on the British side of the Naravapuram Channel, I have the honor to report that the Madras Government having decided to take over only five out of the twenty numbers situated on the British side, orders were issued to the Amildar of Paragada to transfer them to the Amildar of Kindupiri Taluk on the terms agreed upon in letter No: 4586 dated 19th October 1894 from the 1st Assistant Resident to the Tanjore. The Amildar of Paragada accordingly, on the 24th November 1894, wrote to the Shanildar of Kindupiri to take over charge of the

x Numbers 24/2, 24/1, 27, 40 and 42.

the five numbers above mentioned.

× Note
This intimation should have been sent through the Deputy Commissioner.
MM

and intimated having done so to the Collector of Anantapur. But the British authorities not having moved in the matter as yet, the lands remain in the occupancy of the Mysore Ryots.

2. From a perusal of the accompanying map of the lands in question, it will be seen that the transfer to the Madras Government of the five numbers selected by them still leaves numbers 25, 26 and 41 situated on the British side of the Channel, in the possession of Mysore and that the rectification of the boundary will not be complete unless these numbers are also made over to the British Government.

3. I beg to submit herewith a statement showing the amount of compensation payable to the holders of Survey numbers 24/1, 27, 40 and 42 as well as the capitalized value of these numbers and Government waste number 24/2. It will be seen that the compensation has been calculated at

at Rupees 300 per acre for wet and
at Rupees 150 per acre for dry land.
These rates are fair considering that
the lands have been under cultivation
from time immemorial and the
ryots have accepted them. The
total amount payable by the Madras
Government is Rupees 5,237-13-
4. As the rectification of the boundary
will not be complete by the acquisition
of only five out of the 8 numbers situated
on the British side of the Naraoapur
channel, as no object is likely to be
gained by acquiring such a large
area as 18 acres and throwing it out of
cultivation, as all the earth required
for the repair of the small length of
the channel passing through Mogaore
territory may be obtained from Govern-
ment waste lands numbers 24½ and
25, and, lastly, having regard to the
large amount of compensation now
involved in the acquisition
of the proposed five numbers, I beg to
submit

Number thereon referred to (Viz 24/1, 24/2, 25, 26 and 42) will not completely extinguish the rights of the Respondents to irrigation from the Narasapuram Channel. There are three more numbers, Viz, 25, 26 and 41 on the British side of the Channel which depend on it for irrigation, as particularised in the accompanying statement of these three numbers, Number 26 and 41, covering an area of 7 acres 29 guntas and assessed at Rupees 29 are reported to have been under occupancy and to have derived their supply of water from the Narasapuram Channel for more than sixty years. The remaining field, Number 25, which consists of dry acres 3—34 and wet acres 2—26 is Government unoccupied waste. The wet portion of this number also depends upon the Narasapuram Channel for irrigation.

But I believe the proposed plate

bearing an annual revenue (including cesses) of Rupees 41-9-6 Of these, Nos: 25 is Government owned unoccupied, and Nos: 26 and 41 Parts 1 and 2. Parts 1 & 2 are in ryots' occupancy.

3. As regards the value and compensation, payable by the Mission government in respect of these fields, I beg to state that, for No: 25 (assessed waste) the capitalized value payable to Government at 30 years' purchase, amounts to Rupees 269-1-0; and the capitalized value on Nos: 26 and 41 amounts to Rupees 9,75-2-0. Besides this compensation at Rupees 500 per acre has been fixed, as in the case of the fields already acquired for the Mission government, for the latter two numbers i.e. 26 and 41 which are, hereby not. Thus the capitalized value of the three numbers in question and the compensation, payable to ryots for nos: 26 and 41 aggregate to Rs. 3565-5-0 Vide Statement attached to my predecessor's letter No: 849 dated 7th May 1900.
